Verbal Description:

Ladle lenses w/ strap handle. Eroded white slip looks like it covered the entire piece. Currently most of the slip is concentrated on one side of the handle. This is a pretty crude piece. The top of the handle is hardly smoothed at all & the bottom part still has a lumpy appearance from where the handle was attached to the bowl. The handle is not marked by line at all, and the rim of the bowl is also unaltered. However where the break is, there is the beginning of burning, which goes through the paste. No other decorat.
